What will each gown really cost?

Fill in or print this sheet at your appointment. Use CAD and the same tax basis for both gowns.
Write "included" or "unknown" where needed. Add each column yourself once costs are confirmed.

What still needs a quote?

Note the exact spot on the dress, who will assess it, and when you will hear back.

Amount left for the sample to match the other gown

Other gown total minus known sample costs. A negative result means the sample already costs more.
