

petal wishes™ wish clips

Instructions

In just a few easy steps you can create a beautiful keepsake of wishes to keep for a lifetime.

You can always visit us online at givepetalwishes.com for other fun and easy tips.

You'll Need: Petal Wishes Bouquet with assembled, handwritten flowers & 1 Shadow box – minimum recommended size 16x20, you can also consider using 2 shadow boxes for your wishes flowers too

Step 1: Open the back of your shadow box.

Step 2: Remove all the flowers from the Petal Wishes Bouquet. Hold the stem of the flower and gently pull the head of the flower.

Step 3: Place all your flowers on the shadow box back. Be sure to leave space around the edge for replacing the frame, so your frame doesn't overlap your wishes petals. Use your creativity; scatter the flowers to fill in the shadow box. If you wish you can further customize your shadow box by attaching fabric to the shadow box backing before placing your wishes flowers.

Step 4: Replace the flower in each spot with a Wish Clip. Wait to remove the backing to reveal the adhesive until all your Wish Clips are in place.

petal wishes™ wish clips

Instructions

Step 5: Remove the paper backing to reveal the adhesive. Push the Wish Clip into place.

Step 6: Snap the flowers into your Wish Clips.

Step 7: Replace the shadow box frame over the front of your flowers.

Step 8: Turn the shadow box over and close all the tabs to complete your project.

Hang your shadow box of wishes and enjoy a lifetime of happy memories.
May all your good wishes come true!
